

SUNSMART POLICY

Non-English speakers

If you need help to understand the information in this policy please contact Parkwood Green Primary School on 94493600

PURPOSE

The purpose of this policy is to encourage behaviours at Parkwood Green Primary school to minimise the risk of skin and eye damage and skin cancer.

This policy provides guidelines to:

- support staff and students to use a combination of sun protection measures when UV index levels are 3 or above (generally mid-August – end of April)
- ensure that there are outdoor environments that provide adequate shade for students and staff
- ensure students are encouraged and supported to develop independent sun protection skills to help them to be responsible for their own protection
- support our school's strategies to meet its duty of care and occupational health and safety obligations to minimise harmful UV exposure and associated harm for students and staff.

SCOPE

This policy applies to all school activities, including camps and excursions. It is applicable to all students and staff.

POLICY

Excessive exposure to the sun's ultraviolet (UV) radiation can cause health problems including sunburn, damage to skin and eyes, and an increased risk of skin cancer.

UV radiation:

- cannot be seen or felt
- can be reflected off surfaces such as buildings, asphalt, concrete, water, sand and snow
- can pass through light clouds
- varies in intensity across the year (highest in Victoria from mid-August – end of April)
- peaks during school hours.

Sun safety is a shared responsibility and staff, parents and students are encouraged to implement a combination of sun protection measures whenever UV levels reach 3 and above (typically from mid-

August to the end of April in Victoria). Information about the daily local sun protection times is available via the free SunSmart app, or at sunsmart.com.au or bom.gov.au.

Parkwood Green Primary school has the following measures in place to help reduce the risk of excessive UV sun exposure for staff and students.

Shade

Parkwood Green Primary school will provide sufficient options for shelter and trees to provide shade on school grounds, particularly in places such as:

- the canteen
- popular play areas

When building works or grounds maintenance is conducted at Parkwood Green Primary school that may impact on the level of shading available to staff and students, a review of the shaded areas available will be conducted and further shading installed as appropriate.

Sun protective uniform/clothing

Parkwood Green Primary school's school uniform and dress code includes sun-protective clothing, including:

- loose, cool, closely woven fabric
- shirts with a collar and/or high necklines
- tops with elbow length or long sleeves
- longer style shorts and skirts
- rash vests or t-shirts for outdoor swimming activities.

In Term 1 and Term 4, all students **must** wear a sun protective hat that shades the face, neck and ears for all outdoor activities. Hats may also be worn for all outdoor activities in other Terms, by parent or student choice.

Staff and students are encouraged to wear hat styles that protect the face, neck and ears when outdoors, for example broad-brimmed, legionnaire or bucket. Students can purchase a Parkwood Green School hat with other uniform items outlined in the Student Dress Code policy.

Students who are not wearing appropriate protective clothing or a hat may be asked to play in the shade or in a suitable area protected from the sun.

Sunscreen

Parkwood Green Primary school encourages all staff and students to apply SPF30 (or higher) broad-spectrum, water-resistant sunscreen daily whenever UV levels reach 3 and above. Sunscreen should be applied at least 20 minutes before going outdoors, and reapplied every two hours according to [manufacturer's instructions](#).

Parkwood Green Primary school has strategies in place to remind students to apply sunscreen before going outdoors. For example Teachers remind students to apply sunscreen before recess and lunch time using the sunscreen supplied to each classroom.

At Parkwood Green Primary school students are welcome to attend the health centre to access sunscreen for reapplication as required. Staff and students who may suffer from allergic reactions from certain types of sunscreen are encouraged to bring their own sunscreen from home. Any sunscreen brought from home should be clearly labelled with the students name and class.

Staff and families should role model SunSmart behaviour and are encouraged to apply SPF 30 (or higher) broad-spectrum, water-resistant sunscreen when outside.

Curriculum

Students at our school are encouraged to make healthy choices and are supported to understand the benefits and risks of sun exposure. Parkwood Green Primary school will address sun and UV safety education as part of the Physical Education and Health curriculum.

Staff are encouraged to access resources, tools, and professional learning to enhance their knowledge and capacity to promote sun smart behaviour across the school community.

Engaging students, staff and families

SunSmart behaviour is regularly reinforced and promoted to the whole school community through newsletters, school assemblies, student and teacher activities and at student enrolment.

COMMUNICATION

This policy will be communicated to our school community in the following ways:

- Available publicly on our school's website
- Available to staff on the school drive
