

STUDENT ENGAGEMENT AND WELLBEING POLICY

PURPOSE

The purpose of this policy is to ensure that all students and members of the Parkwood Green Primary School community understand:

- (a) our commitment to providing a safe and supportive learning environment for students
- (b) expectations for positive student behaviour
- (c) support available to students and families
- (d) our school's policies and procedures for responding to inappropriate student behaviour

Parkwood Green Primary School is committed to providing a safe, secure and stimulating learning environment for all students. We understand that students reach their full potential only when they are happy, healthy and safe, and that a positive school culture helps to engage students and support them in their learning. Our school acknowledges that student wellbeing and student learning outcomes are closely linked.

The objective of this policy is to support our school to create and maintain a safe, supportive and inclusive school environment consistent with our school's values.

Parkwood Green Primary School is committed to promoting and protecting the interests and safety of children. We have zero tolerance for child abuse.

Definition

Student engagement can be defined as three interrelated components: Behavioural, Emotional and Cognitive.

Behavioural engagement refers to students' participation in education, including the academic, social and extra-curricular activities of the school.

Emotional engagement encompasses students' emotional reactions in the classroom and in the school and measures a student's sense of belonging or connectedness to the school.

Cognitive engagement relates to a student's investment in their learning and their intrinsic motivation and self-regulation.

Rationale

The Department of Education and Training (DET) is committed to providing safe, secure and stimulating environments for all students. Students can only reach their full educational potential when they are happy, healthy and safe, and when there is a positive school culture to engage and support them in their learning.

Student wellbeing and student learning outcomes are inextricably linked. The Student Engagement Policy and Guidelines articulates our school community's shared expectations in the areas of student engagement, attendance and behaviour.

The policy supports the rights and articulates the expectations of every member of the Parkwood Green school community to engage in and promote a safe and inclusive educational environment where the diverse learning and wellbeing needs of students are recognised.

The Student Engagement Policy and Guidelines will focus upon prevention and early intervention for students who are experiencing behavioural or attendance related issues as this is the most effective means of enhancing the resilience of young people.

1. School profile

Parkwood Green Primary School is located in the rapidly expanding Taylor's Hill and Hillside growth corridor. The structure of two Sub-Schools has enabled this large school to offer a small school feel. Principals lead the Sub-Schools (Junior and Senior) and are known to students, teachers and parents alike.

Parkwood Green Primary School is student and curriculum focussed, and strives for and encourages maximum achievement in all areas of teaching, learning and wellbeing. We have a number of economically disadvantaged students who are supported through a variety of programs within the school. Positive Support Plans are introduced for students who require additional assistance, which includes the development and implementation of individualised learning plans for each and every student. The Program for Students with Disabilities (PSD) students identified and funded are supported in a variety of ways. Specialist programs include: Performing Arts (Music, Dance and Drama), LOTE (Italian), Visual Arts, Physical Education and Library.

The school has a focus on monitoring student attendance and are continually developing a variety of positive strategies to encourage regular student attendance.

2. School values

Our values: Honesty, Excellence, Respect, Caring & Responsibility. Our values are clearly communicated with students through learning opportunities in our quality beginnings program held at the beginning of the year and re-visited periodically through circle time throughout the remainder of the year. We teach our values through having staff and community members model best practice.

POLICY IMPLEMENTATION

The implementation of PGPS Behaviour Support framework across the school supports the provision of a safe and supportive learning environment. A learning environment that is characterised by high expectations for student learning of which the school community is fully aware of through the establishment of open communication.

Our aim is to increase parent engagement through greater involvement in classroom curriculum support, excursions and parent learning programs through the establishment of systems that manage incidents via increasingly clear and well-understood processes. This in turn promotes better community engagement. We endeavour to maintain strong relationships with the Student Support Services network and all relevant support agencies.
